

Is the United Kingdom ON TRACK?

- The United Kingdom is slightly off track regarding its 2011 NREAP target. Based on 2011 data, it has not yet achieved its 2011/2012 interim target.
- Average annual growth in RES overall has decreased between 2010 and 2011 compared to the prior six year average, with the transport sector even showing a negative growth trend.
- Growth rates in the electricity and heat sectors would be sufficient to reach the 2020 target.
